Previous

Angus F Gunn – Sheet Metal Operator (March 2017 – February 2018)

NL Leisure – Swimming Teacher (November 2014 – March 2017)

NL Leisure – Lifeguard / Leisure Attendant (September '11 – March '17)

Qualifications & Training

Mar/2018 - July/2018 – CodeClan

During my time here I undertook a 16 week software development course. I learned working in a broad range of various technologies. I produced a number of projects, either solo, in a pair or with a group and did so while meeting challenging deadlines with project specs. I gained a great deal of practical experience and the ability to learn new languages and tools at an accelerated pace as well as the soft skills needed to find success working within a team of developers. The major projects produced can be found via my github account.
